Portfolio

PROFILE SUMMARY

- Experienced Frontend and Backend Developer with over 2 years of expertise in Javascript, Java, Python, Typescript, React.
- Passionate about collaboration and innovation, aiming to enhance operational efficiency and deliver high-quality codes.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, TypeScript, GoLang
- **Development Frameworks:** SpringBoot, Django, ReactJs, NextJs, Flask, Vite, Node js
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Technologies:** Rest API's, Postman, Maven, Test Driven Development (TDD), GitHub, HTML, CSS, Tailwind, Redux, CI/CD, GitHub Actions, Jest, Redux-persist, Keycloak, SASS, Jira.
- **Design Thinking , Critical Thinking , Industrial Design.**

PROFESSIONAL EXPERIENCE

Semicolon Africa – Java Backend Engineer

Sept. 2024 – present

- Wrote unit tests and integration tests respecting TDD with JUnit, resulting in faster development cycles.
- Documented APIs using Postman to ensure clear and comprehensive API documentation.
- Integrated Keycloak for authorization and authentication, ensuring secure access control.
- Utilized Spring Security and JWT tokens for robust authentication and authorization mechanisms.
- Architected and implemented a scalable micro-service architecture via spring cloud having new feature development time and enabling deployment across diverse environments.
- Collaborated with stakeholders to gather Requirements, design database structures, and fine tune queries, culminating in a 30% improvement in data retrieval and a 25% reduction in query execution time.
- Strategically leveraged Java Database Connectivity (JDBC) expertise to optimize Database interactions significantly boosting the application performance by 17%.

Quagga

June 2024 – September 2024

- Strategically to optimize Database interactions significantly boosting the application performance by 17%.
- Developed and implemented RESTful API endpoints for data access, manipulation, and storage.
- Developed and maintained backend components for two flagship products, contributing to a 20% increase in user satisfaction.
- Collaborated closely with front-end developers to ensure seamless integration and a cohesive user experience.

EDUCATION

- **Semicolon Africa**
Software Engineering. (Diploma)
- **Henley Business School, UK**
Business Education and Entrepreneurship. (Diploma)
- **Federal College of Agriculture, Akure**
National Diploma (ND) - Animal Health and Production

PROJECTS

Xpertview (Consultation and Life Coaching App) | Java (Springboot), React, JavaScript, MongoDB | [Homepage](#)

- Collaboratively developed a rental platform by working with a team of developers to enable users to check for apartments, search by area and price, and rent apartments.

Dee Logistics (Items Delivery App) | Java (Springboot), React, JavaScript, MySQL, Jest | [Live Dashboard](#)

- Developed a logistics app that enables users to order riders for pickup and delivery of dispatches or orders, ensuring efficient and reliable service.

Event-Booker (Event Booking System) | java (Springboot) | [GitHub Repo](#)

- Developed an event booking platform utilized in java for Managing Events.
